Hi John,

Today, we have performed the below tasks on Tutorialsninja Web Application:

- Retesting
- Regression Testing
- Testing by Exploring the Application

Defects Identified Today

- Today, we have not found any new issues

Resting Results

We have found that the below three defects got fixed by the developers. We have retested them and changed their status accordingly.

Defect#	Description	Status
TU1-I2	'Privacy Policy' Checkbox field in 'Register Account' page is not marked with red colour * symbol	In Progress
TU1-I3	User is able to register an account by providing an invalid phone number	Closed
TU1-I24	A blank 'Contact Us' page is displayed on submitting the form in 'Contact Us' page	In Progress

Regression Testing

We have executed the test cases of the existing functionalities and not found any new defects.

Refer enclosed Test Cases document for results.

Tasks Planned for Tomorrow:

- We will continue testing the application by exploring it, until we receive the new build/version of the application.

Regards,
Arun Motoori
Test Lead
